PROFESSIONAL EXPERIENCE

Associate Director of Data Analysis and Reporting, Financial Aid Office July 2025-Present
Hofstra University, Uniondale, New York

- Use Microsoft Access to develop and maintain databases for financial aid processing and reporting for approximately 11,000 students, faculty and administrators
- Clean up and maintain information, making it more accessible and usable for all team members, Streamline processes for other University teams to process their reports
- Work on qualitative and quantitative surveys to submit for national school program rankings
- Process university wide financials into budget summary reports to submit to the Vice President for advisory decisions
- Use federal data to build reports for future financial aid assessments
- Generate all reports as needed by the Office of Financial Aid and the University (Law School, Medical School, Business School and Institutional Research) using Microsoft Access transitioned into Excel for increased clarity, act as a bridge among Law, Medical and Business School Deans and directors of departments

Data Delivery Intern, Hudson Insurance Group, New York, New York June 2024-August 2024

- Used Microsoft SQL Server Management to establish new tables in preparation to feed fifty sources (internal and external), into a new data warehouse and to establish standards and governance. This is projected to lead to significant improvement in efficiency for actuaries, underwriters and BI reporting team. The new data warehouse will be used to support a business with over \$2 billion in GWP
- Continuously analyzed the SQL slice layout in Excel and built an internal progress tracker using Excel formulas for the project. Ensured data wasn't being replicated while ten people were concurrently working on the most up to date version to ensure accuracy. Ensured progress was on track and in scope
- Created and presented a ten-week insurance project to underwrite a company for senior administrators and executives

Business Intern, Selflock Screw Products (SSP), Syracuse, New York January 2024-May 2024

- Selected for the D'Aniello Internship Program from Syracuse University
- Optimized email marketing plan using Excel and Intuit Mailchimp to solicit to potential clients
- Collaborated with external marketing company in Selflock's rebranding

Analyst Intern, Converge Technology Solutions, New York, New York July 2023-August 2023

- Worked with supervisor and team on requirement analysis
- Categorized requirements for new storage system for company-wide, cross-practice presales repository with the intent to share customer information across sales cycles.
